PROFILE SUMMARY

As a fresher in the job market, I possess a strong skill set in 'web development'. I have gained expertise mostly in 'Front-End' and little bit in Back-End Technology. I am adept at creating responsive and visually appealing user interfaces using HTML, CSS, and JavaScript. I have experience in leveraging popular JavaScript frameworks such as React.js to build interactive and scalable web applications. Beyond web development, I possess a comprehensive understanding of computer programming languages & problem-solving using 'C' and 'Java'.
